Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

The only minor issues found are:

- Serve images in next-gen formats. Image formats like WebP and AVIF often provide better compression than PNG or JPEG, which means faster downloads and less data consumption.
- Properly size images. Serve images that are appropriately-sized to save mobile data and improve load time.

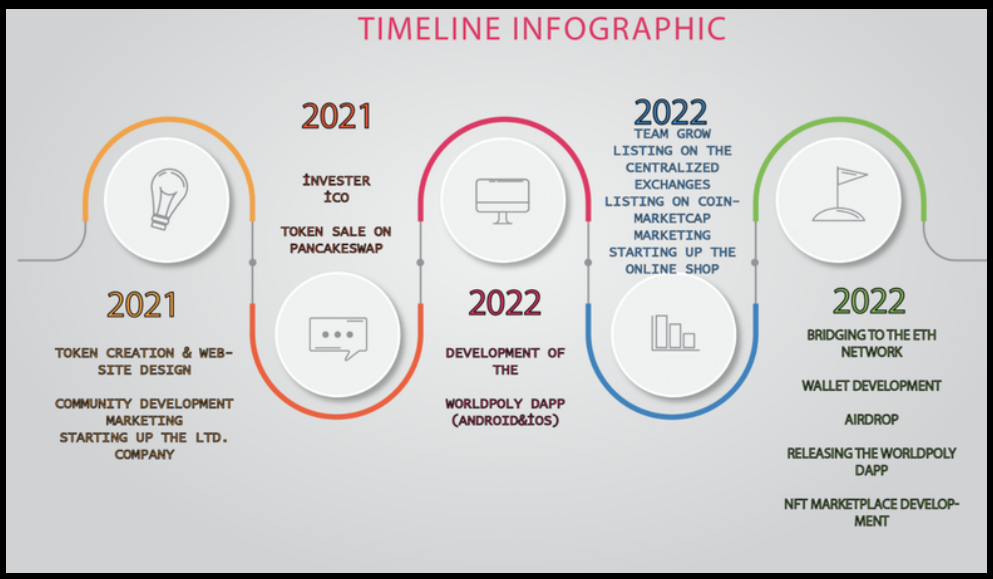
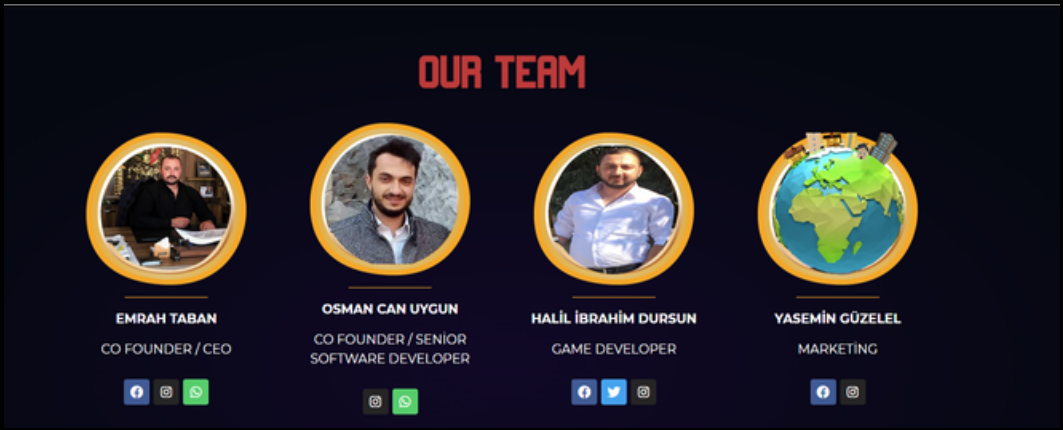
Roadmap



Roadmap was found on the website and is displayed above. All milestones are on track so far and they are heading to the next phase of their plan.

WPY team is focused on successfully launching their token and bringing investors into the project. Among their next milestones is a Cross-platform mobile application (Android & iOS) as well as listing on Centralized Exchanges and CMC/CG.

Team Analysis



Team was found on the website and is shown above.

There are social links attached to the profiles leading to real people's profiles with a significant amount of social activity.

Also Two of the core members of Worldpoly has passed KYC with Coinscope, verifying their identity and sharing the private information to Coinscope. That means that in case of fraud or scam Coinscope has the legal right to release their private information to the internet.

Your Score

WPY is a very low risk project, with a small and growing community. The smart contract analysis showed no warnings. There is no malicious function that the team can abuse to manipulate fees and trades as there are limitations to what the Owner can change. The team is fully doxxed and they also verified their information to Coinscope using KYC. That means that their private information is stored and will be released in case of fraud/theft. The project aims to integrate into the Metaverse and attract users with its NFTs and Games explained in the whitepaper. Focusing on Marketing is recommended to raise awareness of the project.
