RUN AUDIT

BEP-20 TOKEN

COINSCOPE

Prepared by: Coinscope team

For Contract Address : 0x04e71e750b44A89Df510BE807c37D2e484424a5

DISCLAIMER

Coinscope team does not guarantees that a project will not remove liquidity, sell off team supply, or any other exit scam strategy.

The information provided on this document by auditing the respective project is only for general information and should NOT be used as a reason to invest in any independent project.

Our goal is to run as many diagnostics we can with the information we have and is publicly available.

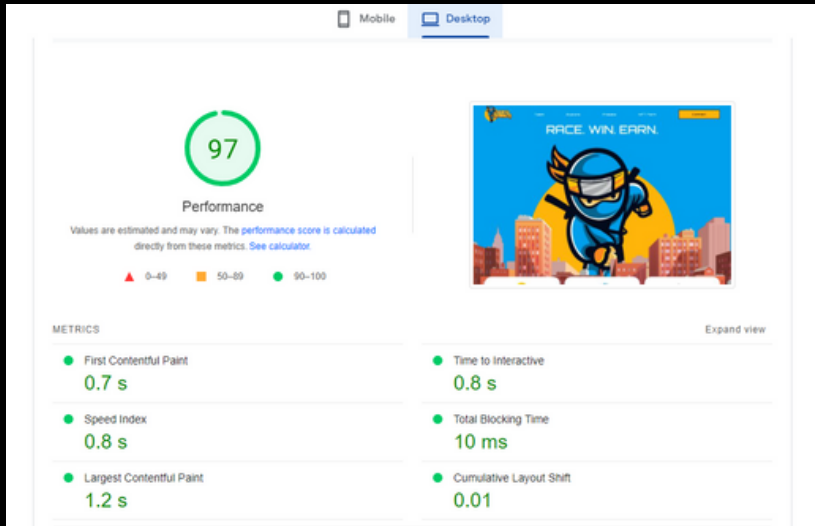

In the end of this audit we will objectively score this project based on the table of contents listed on <https://www.coinscope.co/audit>

Coinscope team under no circumstances will take any bribe or payment for manipulating the results of this audit. We will score and award a security Gem that will stay on this project's information for ever on our website.

COINSCOPE

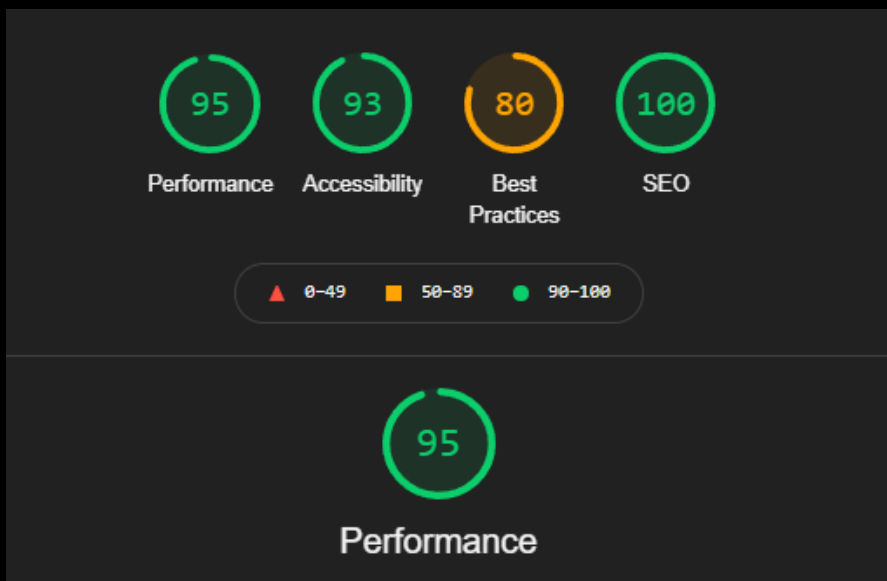

Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

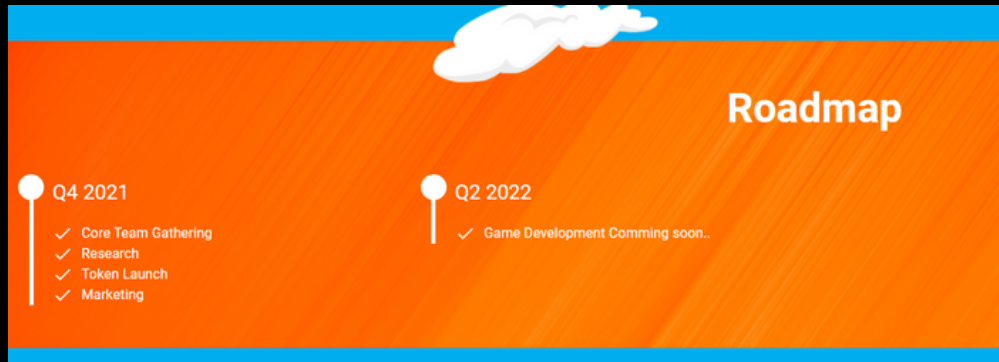

The only minor issues found are:

- Serve images in next-gen formats. Image formats like WebP and AVIF often provide better compression than PNG or JPEG, which means faster downloads and less data consumption
- Efficiently encode images. Optimized images load faster and consume less mobile data

COINSCOPE

Roadmap

Roadmap was found on the website and is displayed above. Their plan is to safely launch their token, promote the project and grow the team. Their final milestone is game development.

There are not many details regarding the team's plan. The content does not provide a thorough explanation of the team's vision.

Team & Whitepaper

Team was found on the website. No full names or social links were provided to match a real profile.

This is not a blocker as many project owners will prefer to hide their identities and decide to come forward later.

Whitepaper was not found on the website.

Contract & Tech

Contract code is published and verified on BSCAN

Contract owner can manipulate fees

Contract owner can send tokens from the contract to another wallet of his choice

```
contract CryptoRunner is Context, IERC20, Ownable, ReentrancyGuard {
    using SafeMath for uint256;
    using Address for address;
    using TransferHelper for address;

    address DEAD = 0x0000000000000000000000000000000000000000000000000000000000000000;

    string private _name = 'CryptoRunner';
    string private _symbol = 'RUN';
    uint8 private _decimals = 9;

    mapping(address => uint256) internal _reflectionBalance;
    mapping(address => uint256) internal _tokenBalance;
    mapping(address => mapping(address => uint256)) internal _allowances;

    uint256 private constant MAX = ~uint256(0);
    uint256 internal _tokenTotal = 1_000_000_000_000e9;
    uint256 internal _reflectionTotal = (MAX - (MAX % _tokenTotal));

    mapping(address => bool) public isTaxless;
    mapping(address => bool) internal _isExcluded;
    address[] internal _excluded;

    uint256 public _feeDecimal = 2;
    // index 0 = buy fee, index 1 = sell fee, index 2 = p2p fee
    uint256[] public _taxFee;
    uint256[] public _liqFee;
    uint256[] public _vaultFee;
    uint256[] public _marketingFee;

    uint256 internal _feeTotal;
    uint256 internal _liqFeeCollected;
    uint256 internal _vaultFeeCollected;
    uint256 internal _marketingFeeCollected;

    bool public isFeeActive = false; // should be true
    bool private inSwap;
    bool public swapEnabled = true;

    uint256 public maxTxAmount = _tokenTotal.mul(5).div(1000); // 0.5%
    uint256 public minTokensBeforeSwap = 1_000_000e9;

    address public marketingWallet;
    IFeeReceiver public feeReceiver;

    IUniswapV2Router02 public router;
    address public main;
```

Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - medium/low risk.
- 90-100 score points award you with Gold Badge - low risk.

Your Score

RUN is a medium risk project, with a small community and an ongoing development project. The smart contract analysis showed no warnings. On the other side, there are powerful admin functions that the owner can abuse to manipulate fees and send tokens from the contract to any wallet. The team was not found or mentioned anywhere and there is not enough content in the website to extract more information. Hosting an AMA or doxxing the team is highly advised to provide more confidence and trust to the community. Renouncing the contract ownership after launching will eliminate the contract risks.
