## Summary

Shib Castle is a NFT MEME project made for the community, based on the Binance Smart Chain. The token has a friendly and growing community. The smart contract analysis reported no compiler errors or critical issues. There are a few Owner-only functions and they cannot be used in a malicious way, in fact there are limitations to what the owner can change. The team has passed KYC with Pinksale, meaning that if they commit a crime or theft in any way, Pinksale will release their information on the internet.
