# FLOKI AUDIT

BEP-20 TOKEN

Prepared by: Coinscope team

For Contract Address : 0xbc79911fd63b6d744301ee5cf71cbfb0f2ae6e78

# DISCLAIMER

Coinscope team does not guarantees that a project will not remove liquidity, sell off team supply, or any other exit scam strategy.

The information provided on this document by auditing the respective project is only for general information and should NOT be used as a reason to invest in any independent project.

Our goal is to run as many diagnostics we can with the information we have and is publicly available.

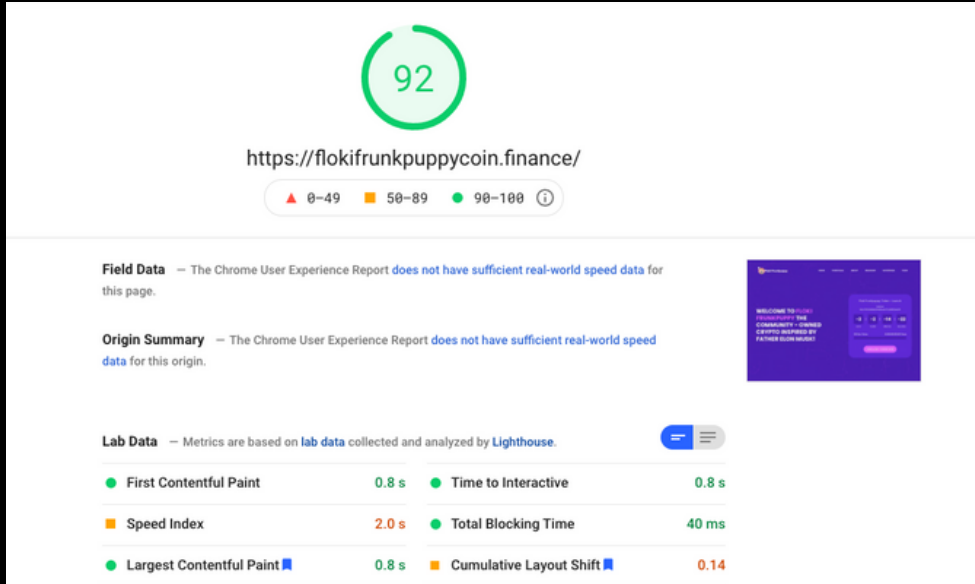

In the end of this audit we will objectively score this project based on the table of contents listed on <https://www.coinscope.co/audit>

Coinscope team under no circumstances will take any bribe or payment for manipulating the results of this audit. We will score and award a security Gem that will stay on this project's information for ever on our website.

# Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

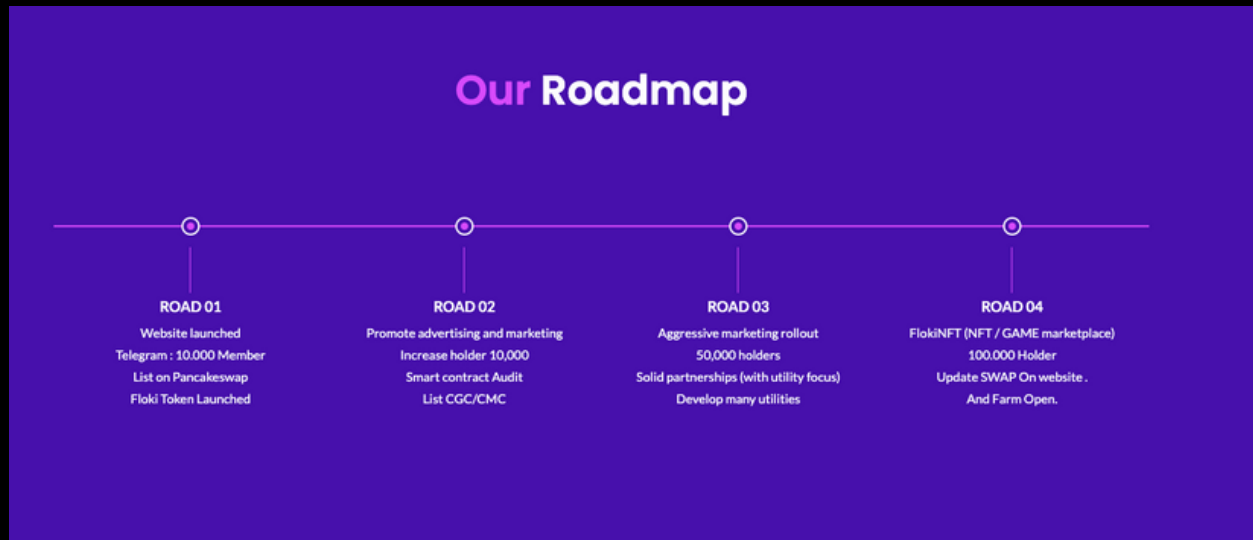

The only minor issues found are:

- Image formats like WebP and AVIF often provide better compression than PNG or JPEG, which means faster downloads and less data consumption.
- Properly size images. Serve images that are appropriately-sized to save cellular data and improve load time.

# Roadmap

Roadmap was found on the website and is displayed above. All milestones are on track so far and they are heading to the next phase of their plan.

## Potential dangers for remaining Roadmap targets

- CoinmarketCap requires high trading volume and number of holders
- CoinGecko requires high trading volume and number of holders

# Team analysis

Team was found on the website and is shown above.

The profiles do not have social links attached so no information can be extracted about them at the time being.

This is not a blocker as many project owners choose to come forward later with an AMA or with links to their real profiles (Linkedin would be useful).

# Contract & Tech

Contract code is published and verified on BSCAN

Contract contains burn/deflation mechanism

## Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - medium/low risk.
- 90-100 score points award you with Gold Badge - low risk.

## Your Score

FLOKI is a medium/low risk project, with a friendly community and a very interesting roadmap. The smart contract analysis showed no serious warnings. The contract is a Safemoon-alike clone with reflection Tokenomics. The project needs a marketing boost to organically grow. A lot more holders and Daily trading volume will be required for the next steps.
