SHIBA AUDIT

BEP-20 TOKEN

Prepared by: Coinscope team

For Contract Address : 0x9f5521b315c90e781ac1d09a13e70e83a22af103

DISCLAIMER

Coinscope team does not guarantees that a project will not remove liquidity, sell off team supply, or any other exit scam strategy.

The information provided on this document by auditing the respective project is only for general information and should NOT be used as a reason to invest in any independent project.

Our goal is to run as many diagnostics we can with the information we have and is publicly available.

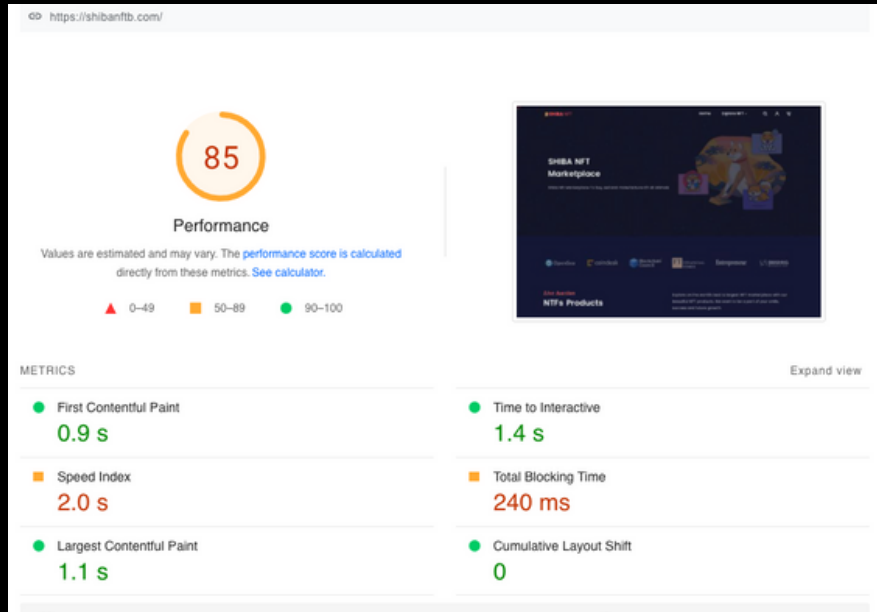

In the end of this audit we will objectively score this project based on the table of contents listed on <https://www.coinscope.co/audit>

Coinscope team under no circumstances will take any bribe or payment for manipulating the results of this audit. We will score and award a security Gem that will stay on this project's information for ever on our website.

COINSCOPE

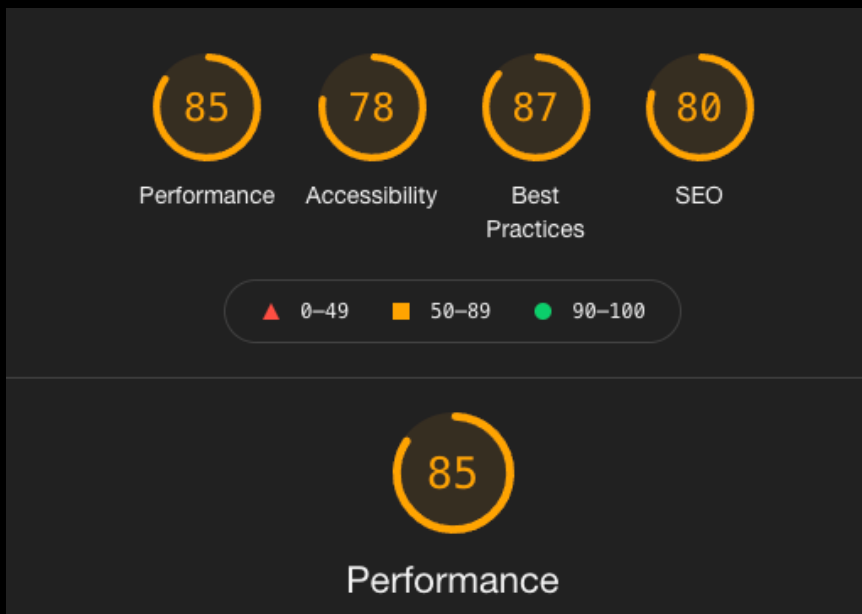

Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

The only minor issues found are:

- Serve images in next-gen formats. Image formats like WebP and AVIF often provide better compression than PNG or JPEG, which means faster downloads and less data consumption
- Efficiently encode images. Optimized images load faster and consume less mobile data

Roadmap

Roadmap was found on the website and is displayed above. All milestones are on track so far and they are heading to the next phase of their plan.

The team plans to create a mobile app (Android) after their successful launch. Developing a lottery is also among their 2022 targets.

Team & Whitepaper

Team was not found on the website.

This is not a blocker as many project owners will prefer to hide their identities and decide to come forward later.

Whitepaper was not found on the website.

No information can be extracted at this point.

Contract & Tech

- ✓ Contract code is published and verified on BSCAN
- ✓ Contract owner can not manipulate fees
- ✓ No malicious or prevent-selling mechanism found

```
contract LiquidityGeneratorToken is Context, IERC20, Ownable {
    using SafeMath for uint256;
    using Address for address;
    address dead = 0x0000000000000000000000000000000000000000000000000000000000000000;

Award

12

Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - medium/low risk.
- 90-100 score points award you with Gold Badge - low risk.

Your Score

SHIBA is a medium risk project, with a small and growing community. The smart contract analysis showed no warnings and there is no malicious function that the team can abuse to manipulate fees and trades. The team was not found or mentioned anywhere and there is not a Whitepaper to extract more information. Hosting an AMA or doxxing the team is highly advised to provide more confidence and trust to the community. There are a lot of static assets in the website, especially the not working pagination and links leading to broken pages misleading and giving the impression that things are working.

COINSCOPE

Disclaimer

All the content provided in this document are for general information only and should not be used as a financial advice or a reason to buy any investment.

Coinscope team provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Always Do your own research and protect yourselves from being scammed.

Coinscope team has audited this project for general information and only expresses their opinion based on similar projects and checks from popular diagnostic tools. Under no circumstances did Coinscope receive a payment to manipulate those results or change the awarding badge that we will be adding in our website.

Always Do your own research and protect yourselves from scams. This document should not be presented as a reason to buy or not buy any particular token.

Coinscope team disclaims any liability for the resulting losses.
