Contract Review

Contract Name	LiquidityGeneratorToken
Compiler Version	v0.7.6+commit.7338295f
Optimization	200 runs
Licence	NONE
Explorer	https://bscscan.com/token/0xC3dB171916C77Cc55b80342bbA8A527eB73002f3
Symbol	SWIT
Decimals	9
Total Supply	1,000,000,000
Website	https://swapit.io

Audit Updates

Initial Audit	18th of December 2021
Corrected	

Contract Analysis

● Critical
 ● Medium
 ● Pass

Severity	Code	Description
●	MT	Contract Owner is not able to mint new tokens
●	BT	Contract Owner is not able to burn tokens from specific wallet
●	ELFM	Contract Owner is not able to increase fees more than a reasonable percent (10%)
●	ST	Contract Owner is not able to stop or pause transactions
●	OCTD	Contract Owner is not able to transfer tokens from specific address
●	ULTW	Contract Owner is not able to increase the amount of liquidity taken by dev wallet more than a reasonable percent
●	BC	Contract Owner is not able to blacklist wallets from selling

ST - Stop Transactions

Criticality	high
Location	https://bscscan.com/address/0xC3dB171916C77Cc55b80342bbA8A527eB73002f3#code#F1#L508

Description

The contract owner has the authority to stop transactions for all users excluding the owner. The owner may take advantage of it by setting the `_maxTxAmount` to zero.

```
if (from != owner() && to != owner()) {  
    if (!_isExcludedFromMaxTx[from] && !_isExcludedFromMaxTx[to]) {  
        require(amount <= _maxTxAmount, "Transfer amount exceeds the  
maxTxAmount.");  
    }  
}
```

Recommendation

The team should carefully manage the private keys of the owner's account. We strongly recommend a powerful security mechanism that will prevent a single user from accessing the contract admin functions. That risk can be prevented by temporarily locking the contract or renouncing ownership.

Contract Diagnostics

Pass	Name
✓	Integer Underflow
✓	Parity Multisig Bug
✓	Callstack Depth Attack
✓	Transaction-Ordering Dependency
✓	Timestamp Dependency
✓	Re-Entrancy

Summary

SWAPIT is aiming to introduce gamification with the latest trends of NFT's, DeFi, Cryptocurrency, and Blockchain technology. The token has a friendly and growing community. The contract analysis did not report any major issue except the indirect potential of stopping the transactions. A multi-wallet signing pattern or renouncing the ownership will eliminate the contract threat.
