# BIVI AUDIT

**BEP-20 TOKEN**

Prepared by: Coinscope team

For Contract Address : 0x6d778c9d50533448A34615a775D5A0094244D6C3

# DISCLAIMER

Coinscope team does not guarantees that a project will not remove liquidity, sell off team supply, or any other exit scam strategy.

The information provided on this document by auditing the respective project is only for general information and should NOT be used as a reason to invest in any independent project.

Our goal is to run as many diagnostics we can with the information we have and is publicly available.

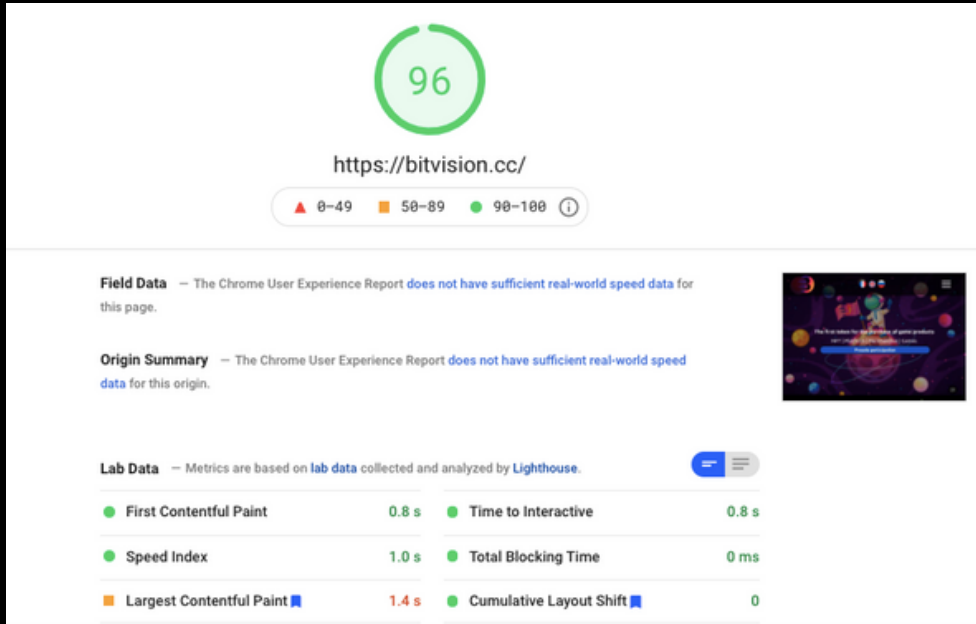

In the end of this audit we will objectively score this project based on the table of contents listed on <https://www.coinscope.co/audit>

Coinscope team under no circumstances will take any bribe or payment for manipulating the results of this audit. We will score and award a security Gem that will stay on this project's information for ever on our website.

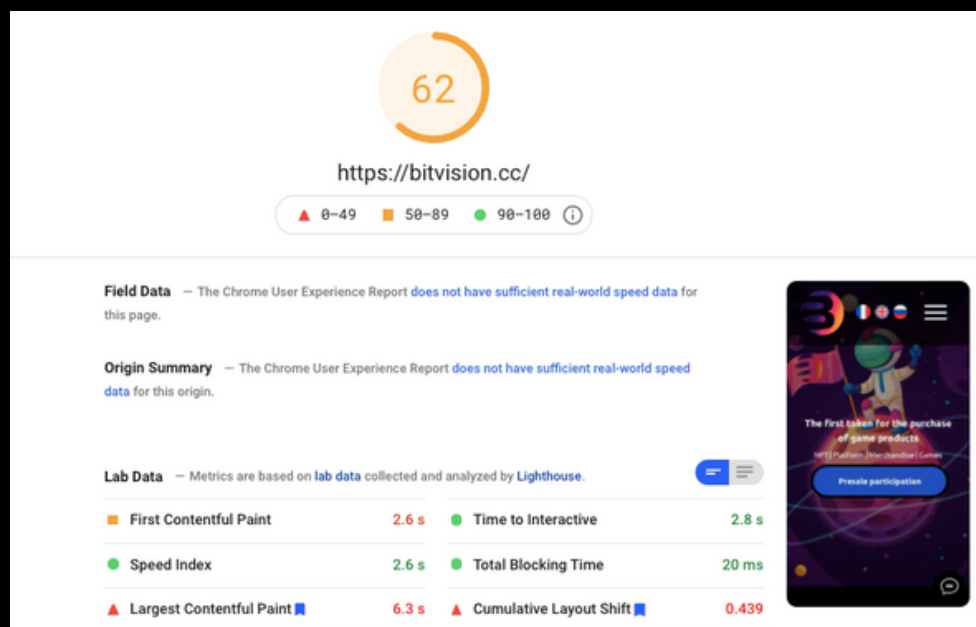

# Website Diagnostics

## Desktop Score

## Mobile Score

COINSCOPE

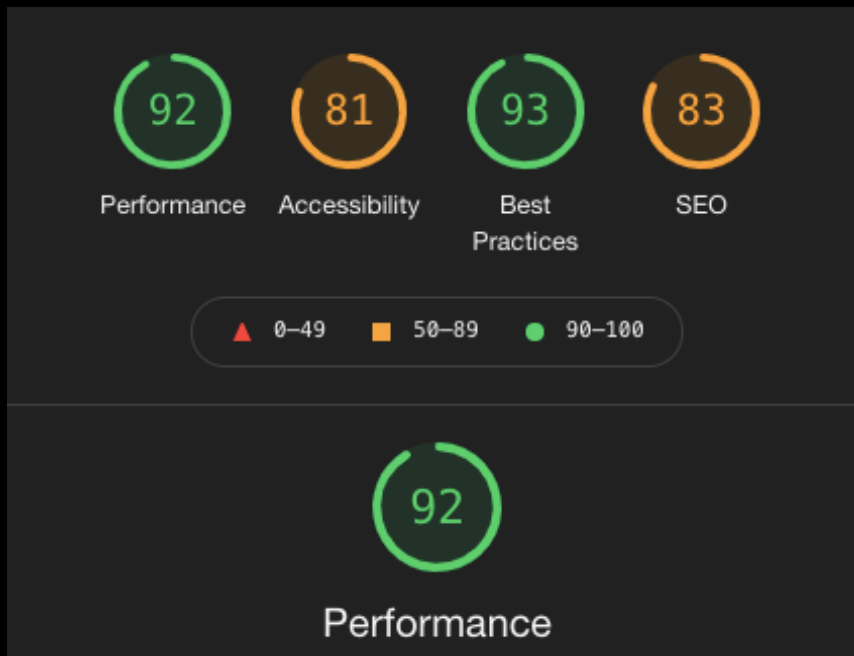

# Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

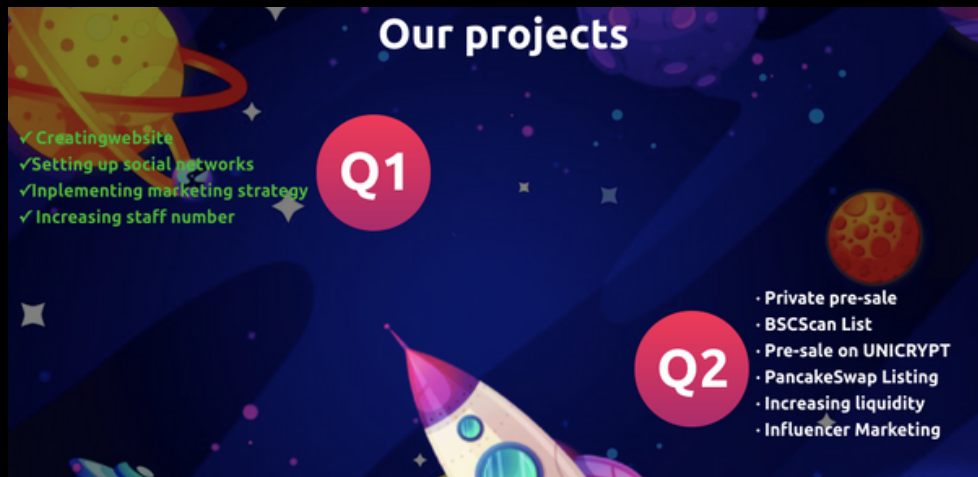

The only minor issues found are:

- Image formats like WebP and AVIF often provide better compression than PNG or JPEG, which means faster downloads and less data consumption.
- Resources are blocking the first paint of your page. Consider delivering critical JS/CSS inline and deferring all non-critical JS/styles

COINSCOPE

# Roadmap

Roadmap was found on the website and is displayed above. All milestones are on track so far and they are heading to the next phase of their plan.

## Potential dangers for remaining Roadmap targets

- CoinmarketCap requires high trading volume.
- A lot of development milestones, hiring more developers is a must in order to be able to deliver all those products.

# Team Analysis

Team section was found on the website and is displayed above.

No social links are found on their profiles but the team was kind enough to provide LinkedIn and other social links to verify their identities.

This is generally a positive sign as most projects will hide their team's identity.

# Contract & Tech

- ✓ Contract code is published and verified on BSCAN
- ✓ No Major warning/error found
- ✓ Contract has Burn/deflation mechanism

```

3  contract BitVision is Context, IBEP20, Ownable {

# Award

## Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - medium/low risk.
- 90-100 score points award you with Gold Badge - low risk.

## Your Score

BIVI is a low risk project, with a small and friendly community. The smart contract analysis showed no major warnings/errors. The roadmap is very promising, and the team should focus on marketing and growing the development team, as a lot of development-heavy features are planned for next milestones. The team behind the project is very transparent.
