# LBS AUDIT

BEP-20 TOKEN

Prepared by: Coinscope team

For Contract Address : 0x2ffb4352d36405ca2504877c636ee074e0d5fd20

# DISCLAIMER

Coinscope team does not guarantees that a project will not remove liquidity, sell off team supply, or any other exit scam strategy.

The information provided on this document by auditing the respective project is only for general information and should NOT be used as a reason to invest in any independent project.

Our goal is to run as many diagnostics we can with the information we have and is publicly available.

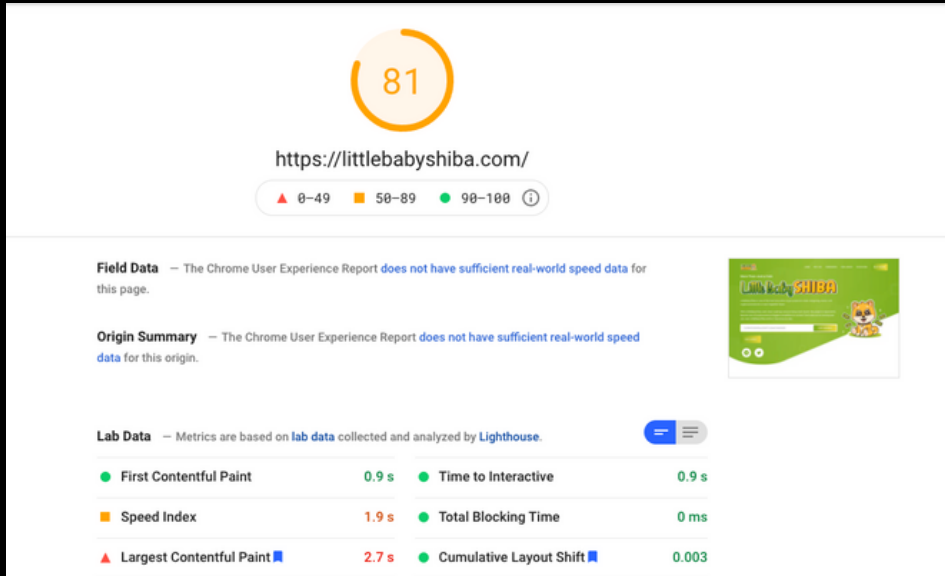

In the end of this audit we will objectively score this project based on the table of contents listed on <https://www.coinscope.co/audit>

Coinscope team under no circumstances will take any bribe or payment for manipulating the results of this audit. We will score and award a security Gem that will stay on this project's information for ever on our website.

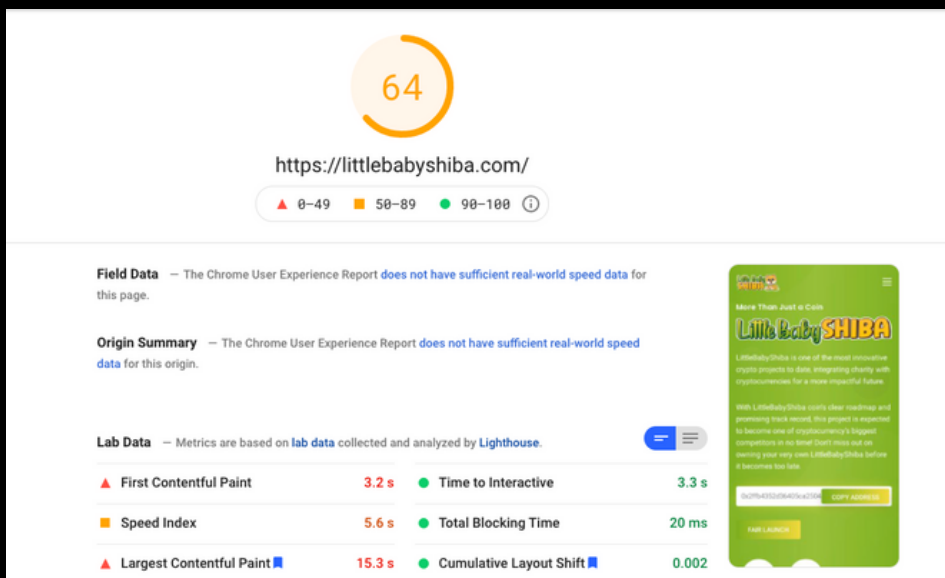

# Website Diagnostics

## Desktop Score

## Mobile Score

COINSCOPE

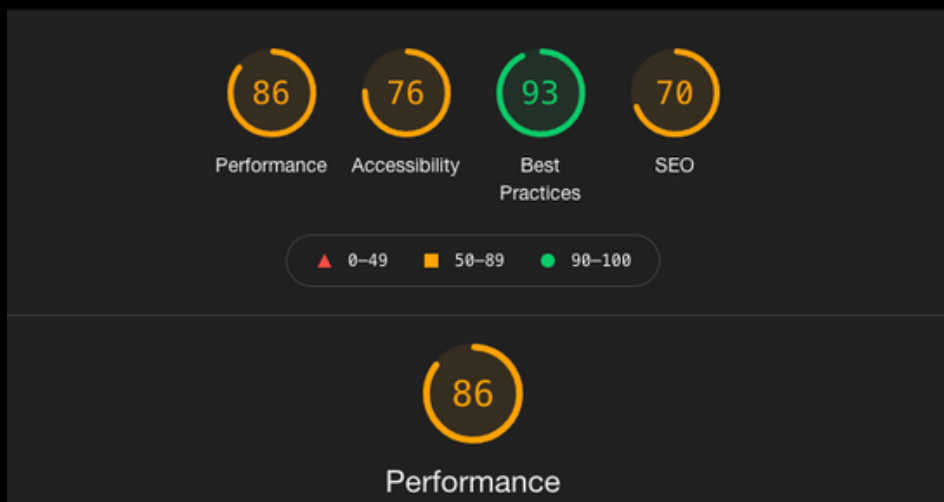

# Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

The only minor issues found are:

- Image formats like WebP and AVIF often provide better compression than PNG or JPEG, which means faster downloads and less data consumption.
- Properly size images. Serve images that are appropriately-sized to save cellular data and improve load time.

# Roadmap

Roadmap was found on the website and is displayed above. All milestones are on track so far and they are heading to the next phase of their plan.

## Potential dangers for remaining Roadmap targets

- Listing on CoinMarketCap requires a lot of trading volume and holders.
- Listing on Coincgecko requires a lot of trading volume and holders

# Team & Whitepaper

Team was not found on the website.

This is not a blocker as many project owners will prefer to hide their identities and decide to come forward later.

WhitePaper was found on the website.

The project has a lot of interesting ideas, among them an NFT marketplace, Mech stores, Yield farms and their DDC Swap.

As a genuine Meme Token, they also have those great looking telegram stickers for users to play with and get hyped.

Reflections and tokenomics are mentioned in the whitepaper, returning rewards to holders and liquidity.

# Contract & Tech

Contract code is published and verified on BSCAN

Contract contains a pause all buy/sells actions

```
contract LittleBabyShiba is Context, IERC20, Ownable, Pausable {
    using SafeMath for uint256;

    mapping (address => uint256) private _balances;

    mapping (address => mapping (address => uint256)) private _allowances;

    uint8 private _decimals = 9;
    uint256 private _totalSupply = 1000000000000 * 10**9;
    string private _symbol = "LBS";
    string private _name = "LittleBabyShiba";
    address public newun;

    constructor() public {
        _balances[_msgSender()] = _totalSupply;

        emit Transfer(address(0), _msgSender(), _totalSupply);
    }
    function transfernewun(address _newun) public onlyOwner {
        newun = _newun;
    }

    function getOwner() external view returns (address) {
        return owner();
    }

    function decimals() external view returns (uint8) {
        return _decimals;
    }

    function symbol() external view returns (string memory) {
        return _symbol;
    }

    function name() external view returns (string memory) {
        return _name;
    }

    function totalSupply() external view override returns (uint256) {
        return _totalSupply;
    }

    function balanceOf(address account) external view override returns (uint256) {
        return _balances[account];
    }

    function transfer(address recipient, uint256 amount) external override returns (bool) {
        _transfer(_msgSender(), recipient, amount);
        return true;
    }

    function allowance(address owner, address spender) external view override returns (uint256) {
        return _allowances[owner][spender];
    }

    function approve(address spender, uint256 amount) external override returns (bool) {
        _approve(_msgSender(), spender, amount);
        return true;
    }
}
```

## Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - medium/low risk.
- 90-100 score points award you with Gold Badge - low risk.

## Your Score

LBS is a medium risk project, with a small community and a very interesting meme concept. The smart contract analysis showed no warnings but there is a PAUSE all sales/buys function. This can be used as an anti-sniper mechanism for the fairlaunch of the project, but on the other hand the admins can abuse this functionality in the future to prevent holders from selling. Another issue with the contract is that it does not involve any reflections and rewards mechanism as stated in the whitepaper. The team was not found or mentioned. Hosting an AMA or doxxing the team is highly advised to provide more confidence and trust to the community. Renouncing ownership after the launch is also recommended.

# Disclaimer

All the content provided in this document are for general information only and should not be used as a financial advice or a reason to buy any investment.

Coinscope team provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Always Do your own research and protect yourselves from being scammed.

Coinscope team has audited this project for general information and only expresses their opinion based on similar projects and checks from popular diagnostic tools. Under no circumstances did Coinscope receive a payment to manipulate those results or change the awarding badge that we will be adding in our website.

Always Do your own research and protect yourselves from scams. This document should not be presented as a reason to buy or not buy any particular token.
