# **Contract Review**

Contract Name	BuybackBabyToken
Compiler Version	v0.8.4+commit.c7e474f2
Optimization	200 runs
Licence	MIT
Explorer	https://bscscan.com/token/0x32c8a9eC1Ed450a2eE0 6b941F60340A1f876C696
Symbol	DWOW
Decimals	9
Total Supply	420,000,000,000,000
Source	contract.sol
Domain	dogewow.finance

# **Audit Updates**

Initial Audit	11th February 2022
Corrected	

# **Contract Analysis**

CriticalMediumMinorPass

Severity	Code	Description
•	ST	Contract Owner is not able to stop or pause transactions
•	OCTD	Contract Owner is not able to transfer tokens from specific address
•	OTUT	Owner Transfer User's Tokens
•	ELFM	Contract Owner is not able to increase fees more than a reasonable percent (25%)
•	ULTW	Contract Owner is not able to increase the amount of liquidity taken by dev wallet more than a reasonable percent
•	MT	Contract Owner is not able to mint new tokens
•	ВТ	Contract Owner is not able to burn tokens from specific wallet
•	ВС	Contract Owner is not able to blacklist wallets from selling

# **Contract Diagnostics**

CriticalMediumMinor

Severity	Code	Description
•	L01	Public Function could be Declared External
•	L04	Conformance to Solidity Naming Conventions
	L09	Dead Code Elimination
	L11	Unnecessary Boolean equality
	L07	Missing Events Arithmetic

# L01 - Public Function could be Declared External

Criticality	minor
Location	contract.sol#L636,643,664,1411

#### Description

Public functions that are never called by the contract should be declared external to save gas.

```
setFees
transferOwnership
unauthorize
...
```

#### Recommendation

Use the external attribute for functions never called from the contract

# L04 - Conformance to Solidity Naming Conventions

Criticality	minor
Location	contract.sol#L359,749,750,698,1366,1367 and 16 more

#### Description

Solidity defines a naming convention that should be followed. Rule exceptions:

- Allow constant variable name/symbol/decimals to be lowercase.
- Allow \_ at the beginning of the mixed\_case match for private variables and unused parameters.

```
_decimals
_minDistribution
_minPeriod
...
```

#### Recommendation

Follow the Solidity naming convention. <a href="https://docs.soliditylang.org/en/v0.4.25/style-guide.html#naming-conventions">https://docs.soliditylang.org/en/v0.4.25/style-guide.html#naming-conventions</a>

# L09 - Dead Code Elimination

Criticality	minor
Location	contract.sol#L255,273,307,287,192,152 and 6 more

#### Description

Functions that are not used in the contract, and make the code's size bigger.

trySub
tryMul
tryMod
...

#### Recommendation

Remove unused functions.

# L11 - Unnecessary Boolean equality

Criticality	minor
Location	contract.sol#L1011

#### Description

The comparison to boolean constants is redundant. Boolean constants can be used directly and do not need to be compared to true or false.

```
require(bool,string)(buyBacker[msg.sender] == true,Not a buybacker)
```

#### Recommendation

Remove the equality to the boolean constant.

# L07 - Missing Events Arithmetic

Criticality	minor
Location	contract.sol#L748,1365,1379,1456,1464

#### Description

Detected missing events for critical arithmetic parameters. There are functions that have no event emitted, so it is difficult to track off-chain changes.

```
targetLiquidity = _target
swapThreshold = _amount
buybackMultiplierNumerator = numerator
...
```

#### Recommendation

Emit an event for critical parameter changes.

Registry Domain ID	1b4d3f59ab4749c8b1371eb5a7219c31-DONUTS
Creation Date	2021-12-28T01:59:17Z
Updated Date	2022-02-07T23:59:37Z
Registry Expiry Date	2022-12-28T01:59:17Z
Registrar WHOIS Server	whois.namecheap.com
Registrar URL	https://www.namecheap.com/
Registrar	NameCheap, Inc.
Registrar IANA ID	1068

The domain has been created about 2 months before the creation of the audit. It will expire in 11 months.

There is no public billing information, the creator is protected by the privacy settings.

# Summary

The Smart Contract analysis reported no compiler error or critical issues. The contract Owner can access some admin functions that can not be used in a malicious way to disturb the users' transactions. There is also a limit of max 25% fees.
