- SEO ranking ✓

The only minor issues found are:

- Serve images in next-gen format. Image formats like WebP and AVIF often provide better compression than PNG or JPEG, which means faster downloads and less data consumption
- Eliminate render-blocking resources. Resources are blocking the first paint of your page. Consider delivering critical JS/CSS inline and deferring all non-critical JS/styles

Roadmap

Roadmap was found on the website and is displayed above. All milestones are on track so far and they are heading to the next phase of their plan.

The team did an excellent job on planning a very realistic roadmap and not overpromising to the community. Their focus is now safely launching on Pinksale, and then developing and deploying their RTC Exchange. Marketing and partnerships is within their Q4 2021 targets as well.

Team Analysis

Team was found on the website and is displayed above.

They display names and cartoon avatars but nothing redirects to a real person's profile. Hence, it's not possible to validate the information displayed about their experience and previous work.

RTC is a low risk project, with a healthy community and a very interesting roadmap. The smart contract analysis showed no warnings. There is no malicious function that the team can abuse to manipulate fees and trades as there are limitations to what the Owner can change. The team was not found or mentioned anywhere. According to the content found on the website, Riotcoins is a blockchain platform that allows users to make payments, create, request loans and crowdfund projects. No SSL certificate is connected to the website, making it vulnerable and potential dangerous for a user to enter his sensitive data.
